

Center: _____

PLAYGROUND SAFETY CHECKLIST

Program staff will inspect the playground prior to allowing children outside to play. The following is a list of items that will be checked:

1. Check entire area and remove debris, animal matter and foreign objects.
2. Check fall zone areas for proper depth of safety material. Rake as needed to fill low areas.
3. Check sidewalks/pads for loose sand and/or fill material. Remove any material that would be slippery or a tripping hazard.
4. Check play equipment for obvious damage or broken parts.
5. Check gates and fences for security and safety.
6. Empty trash receptacles as needed.

*Notify Maintenance Staff of any unsafe condition or if something is beyond the resources of the Center Staff to correct.
